

Amendments to the Abstract:

Please add the following new Abstract of the Disclosure as a separate page after the claims:

ABSTRACT TO THE DISCLOSURE

A seal for a gas supply system of metal, in particular for sealing an airbag conduit, wherein, during operation, the gas supply system has a gas-conducting cross-section and a wall of metal, wherein in the area which seals the cross-section of the gas supply system, a layer of a plastically deformable material is at least partially inserted and the area with the plastically deformable material present therein is sealed in a gas-tight manner, wherein the area of the seal and the plastically deformable material present therein are mechanically interlaced one with the other.
